

LIST OF EPC / TURNKEY PROJECTS EXECUTED

	Client	Name of Project	Engineering / Pro-curement/ Fabrication /Installation/ Platform Modifications / Revamp/Hook-up/ Testing / Pre-commissioning / Start-up/ Commissioning	Contract Award Date	Completion Dates	
					Contractual	Actual
Ongoing Projects	ONGC	Platforms Makeover Project II (PMP=II)	The revamp work mainly consists of replacement of grating, handrails, chequered plates and repair/ replacement of supporting structural steel. New painting of replaced/ repaired items are included in scope of work. These repair/ replacement works shall be carried out on 42 platforms of MH Asset (20 Platforms) and B&S Asset (22 Plaforms). The contractor shall be required to carry out Survey including pre-engineering, pre-construction and post-construction, Design Engineering, Procurement, Fabrication, Transportation, Installation pertaining to repair and replacement works on above platforms.	12.12.2025	31.03.2028	
	ONGC	PROTECTIVE COATING OF WELLHEAD PLATFORM PROJECT - IV (PCWPP-IV) - GROUP- III	The scope of work of maintenance painting at offshore platforms mainly consists of surface preparation and protective coating of external surfaces of structure, piping, equipment, vessels etc. from (-) 1 m w.r.t. MSL to top of topside. In addition, replacement/repair works such as replacement of grating, handrails, structural steel below Cellar Deck and replacement of other miscellaneous items are also required to be carried out on these platforms. Maintenance painting and replacement/repair work shall be carried out on 53 platforms - B&S and N&H Assets	26.03.2025	15.05.2029	
	ONGC	Replacement of complete 16" SO2 vent gas line from SO2 scrubber to final vent point at B193 Process Platform	The scope of work includes engineering, procurement, supply, fabrication, hook up, testing and commissioning of SO2 vent gas line, pipe fittings, flanges, gaskets, fasteners, supports etc	14.02.2025	13.10.2025 Extended till 31.03.2026	
	ONGC / Main Contractor - L&T	Pipeline Replacement Project VII RTR (PRP- VII RTR)	As a Subcontractor for Execution of Offshore Hook-up, Modification and Commissioning under PRP VII project	21.11.2022	Season I - 15.05.2023 Season II - 15.05.2024	
	ONGC	Platforms Makeover Project Tender 1 (PMPT1)	The revamp work mainly consists of replacement of grating, handrails, chequered plates and repair/ replacement of supporting structural steel. New painting of replaced/ repaired items are included in scope of work. These repair/ replacement works shall be carried out on 41 platforms of MH Asset and N&H Asset. The contractor shall be required to carry out Survey including pre-engineering, pre-construction and post-construction, Design Engineering, Procurement, Fabrication, Transportation, Installation pertaining to repair and replacement works on above platforms.	28.10.2022	31.03.2025 Extended till 30.06.2026	
	ONGC	Replacement of Hot Oil Expansion Tank of MH Asset Platforms on LSTK Basis	The scope of work covers existing Hot Oil Vessel are corroded and need replacement due to deteriorating condition & aging. We shall carry out pre engineering survey, pre & post construction survey, project management, construction services , design and detailed engineering, procurement of all material, manufacture, inspection, testing, supply, dismantling, fabrication, load out, tie down, hook up, packing, forwarding, transportation, site acceptance, pre commissioning, commissioning, installation, As-built, overall quality assurance & quality control, all warranties/guarantees related to this project	03.12.2021	02.06.2024 extended 31.01.2026
